## Professional Summary

Computer Science undergraduate passionate about UI/UX design, game design, and automation. Skilled in Unreal Engine 5, front-end development, and process automation tools like UiPath. Creative thinker with experience in architectural design and collaborative projects, aiming to bridge technology and design.

## Education

**K S Rangasamy College of Technology - Tiruchengode, Tamil Nadu** **Expected Graduation**
*Bachelor of Computer Science and Engineering* *May - 2026*

**K S Rangasamy Polytechnic College - Tiruchengode, Tamil Nadu** **Graduation**
*Diploma in Architectural Assistantship* *May - 2023*

## Technical Skill

**Programming Languages**: HTML/CSS, Blueprint (Unreal Engine 5) , AI Developer (Any Language)
**Designing**: UI/UX, Unity, Unreal Engine 5, AutoCAD, Revit Architecture, Google Sketchup
**Technologies/Tools**: VS Code, Figma , Cursor AI , Unreal Engine , Adobe Tools

## Experience

**Assistant Architect** **DEC 2022**
*Architect*

- Worked under an Architect of Aishwarya Eye Foundation, Chennai. The experience was good and really a rewarding internship; we were trusted with the design of the third and most important floor in their hospital and the design we made was selected and we worked on that design for over a month to get it completed.

**UI/UX Designer** **FEB 2025**
*Designer*

- During my six-month internship as a UI/UX Designer at Quick App Studio (FEB 2025 – JULY 2025), I designed user-friendly interfaces for mobile apps and websites, created wireframes and mockups, and collaborated with developers to ensure a seamless user experience. I primarily used Figma and Adobe XD to deliver design assets.

## Projects

**Timesheet validation** | *UiPath*

- Built a bot to validate timesheets, detect missing hours, and generate error reports. Integrated Excel and Outlook to automate HR tasks and improve accuracy.

**SwitchStep – Modular Footwear Innovation |** *MSME Hackathon*

- Designed modular, eco-friendly footwear with retractable and detachable parts. Created 3D prototypes and refined the design based on user testing.

**Ecommerce website for spice based on Kolli Hills** | *Figma*

- Led UI/UX design and frontend development for a spice ecommerce site. Collaborated with local farmers and built the interface in Figma and React.

**Spaceship game in Unreal engine 5** | *Unreal engine 5*

- Developed a space exploration game with interactive planets and custom UI. Used Blueprints to implement movement, environment design, and gameplay.

## Certifications

Unity Game Development (Infosys) || Java (Infosys) || AI Introduction (Infosys) || JavaScript || Prompt Engineering (Infosys) || Unreal Engine 5 || AutoCAD || Google SketchUp || Revit Architecture || UiPath
